A. Published papers:

A.1. Theoretical/methodological [Published papers]:

3. de Uña Álvarez, J., González Manteiga, W. (1999), Strong consistency under proportional censorship when covariables are present, Statistics and Probability Letters 42, 283-292

5. de Uña Álvarez, J. (2000), Strong consistency of the jackknife estimate of variance and covariance for Koziol-Green integrals, Statistics 34, 301-352

42. de Uña-Álvarez J (2011) On the statistical properties of SGoF multitesting method. *Statistical Applications in Genetics and Molecular Biology*, Vol. 10, Iss. 1, Article 18, 1-30

A.2. Applied [Published papers]:

A.3. Software [Published papers]:

A.4. Dissemination [Published papers]:

B. Books/book chapters:

C. Technical reports:

42. de Uña-Álvarez J (2023) Testing for an ignorable sampling bias under random double truncation. arXiv:2301.03698 [Published in: Statistics in Medicine, 2023]
